COMMENTS FROM THE TOWN MANAGER'S OFFICE

The man from the Virchow Air Application Company was in this past week and arrangements were made to spray the town for insect control this summer. Mr. Virchow of the Air Application Company has done the spraying for the town for the past several years. The selectmen and budget committee recommended that the program be undertaken this year if a 12% solution of DDT is used. Mr. Virchow said that because the 6% solution used last year didn't do the job.

The company that does the spraying will skip areas that do not wish to be sprayed if the owners will make their wishes known. There are farmers very close to town that have requested that their farms be excluded from the program and Mr. Virchow has done his best to meet their wishes. If anyone on the fringe area does not wish to be sprayed, he should call the town office and I will tell Mr. Virchow. The spraying will be done the week of June 6. This spray will not hurt laundry or a car finish but it will leave a film. I will try to get the exact date of the spraying in the paper before the work is done.

The town line between Albany and Bethel has been surveyed, staked and painted. The work took longer than expected but it is easy to locate now. If the line is painted every five or six years, a survey should not be needed again.

The work of the highway crew was ahead of the work for the same period last year but the work on the town line has put things back to about the same point as last year. There are several smaller jobs that must be done this month and the first big job of the summer will be tarring. It is hoped that the tarring will begin the last of the month and be completed by the middle of June. If the tarring is done by the middle of June, the rest of the road work can be completed in the time remaining.

Michael Houlihan

Mr. and Mrs. Walter Newell spent the week end with Mrs. Bernice Cutler in Bangor and attended the ball game at the U. of M. in which their son, Charlie, played. Walter also attended the Phi Mu banquet for Dads.

Mrs. Esther Brown and Mary Jane, accompanied Beth Ann Brown and Judy Barker, Gorham State Teachers College, Springfield, Mass., over the week end. Beth and Judy were candidates in the preliminary interviewing of the Exposition College Queen Program.

CURTIS SPEAKS AT MEETING HELD IN BETHEL

Secretary of State Kenneth M. Curtis Friday night called for a closer liaison between his office and local law enforcement officers to curb highway accidents.

Speaking at a meeting of the Western Maine Law Enforcement Association at Bethel, Curtis pointed out that the "Secretary of State's office could gain much from the experience of local law enforcement officials." Curtis said his office would welcome "the advice of those best able to evaluate the effectiveness and practicality of our motor vehicle laws."

Curtis pledged the "full cooperation" of his office in promoting safe driving habits. He called for additional effort to eliminate the use of certain town streets by youthful offenders as "drag strips" and the practice of "hot rodding out of sight of local law enforcement officers."

Curtis said it is not necessary, in many cases, to obtain an arrest or conviction in such cases. He said it might be more effective at times to bring such cases to the attention of the Secretary of State's office.

Curtis said, "our hearing examiners are ready at all times to offer their cooperation in examining any driver who has shown a disregard for the safety of others and a failure to assume the necessary sense of responsibility behind the wheel."

Curtis pointed out that his office is empowered to "suspend or revoke any certificate of registration or any license issued to any person to operate a motor vehicle or right to obtain an operator's license after hearing for any cause which he deems sufficient."

LETTER TO THE EDITOR

Editor
Oxford County Citizen
Bethel, Maine
May 3, 1965

On a few occasions I have had business at the Crescent Park School about the time the school was being dismissed. I have seen the children leaving school and darting across the road in front of the school buses and traffic going both ways on that narrow street. It seemed to me, an outsider, a dangerous situation.

I wondered if the town of Bethel has considered the possibility of building another road from the Crescent Park School over to join the Paradise Road. It doesn't seem very far from the school, and the traffic could all go one way and relieve a lot of congestion. Sincerely yours,
Fred S. Jenkins

COMMENT

"The education forms the common mind:
Just as the twig is bent, the tree's inclined."

For the past one hundred twenty-nine years Gould Academy has been the secondary education in Bethel. Approximately fifty years ago William Dingham II took notice of the struggling Bethel school and through his philanthropy over the passing years it emerged as one of the leading secondary schools in New England.

The members of the Gould Academy Alumni Association now will have a chance to demonstrate that they can be as forward looking and as interested in the continuing education of area young people as Mr. Dingham was a half century ago.

The alumni, especially those in the towns that possibly will form a School Administrative District to build a high school before the fall of 1967, can work with the various town committees to provide the finest possible facilities.

I have been suggested that the alumni group might work to provide a method so that members of Gould history may be preserved for the enjoyment of the alumni and their children.

Like a good parent, education is not to train us, but it is, rather, to make learning unnecessary. Learning for its own sake never was much of an accomplishment, unless it was for the betterment of the individual and a centrality of society as a whole.

Let those of this generation of Academy supporters refuse to live in sentiment over what has passed, but to learn from the history of their alma mater and work for the better education, on all levels, of the area young people.

"Let us, then, be up and do the work."

GOULD ACADEMY

Gould Academy's ten highest senior students attended the Mountain Valley Conference Academic Recognition Banquet at Livermore Falls on Wednesday, May 5. They were accompanied by Headmaster Edmond J. Vachon and Senior Master Vance A. Richardson.

20 SECONDS WITH THE NAZARENE

The hub of all things good and true...the center of all love...the one who kept life's lamp in view...in terms of life above... Dear Mother, you my anchor strong...when my weak faith would drift...Oh, how your words could be along...and give the upward lift...The debt I owe, unlimited...no more can be expressed...then can the autumn lark bring back...spring's beauty to its nest...But hear this tribute from my heart...most precious to you love...because it made my heart reach up...to Him that reigns above.
